Re: CPF No. 4-2004-5028H

Dear Mr. Sands:

On October 1, 2004, the Research and Special Programs Administration (now the Pipeline and Hazardous Materials Safety Administration) issued to Explorer Pipeline Company a Corrective Action Order in the above-referenced case. The order required certain corrective actions with respect to the Holdenville to Okmulgee, Oklahoma, segment. Based on the recommendation of the Director, Southwest Region, it has been determined that Explorer has complied with the terms of that Order. Accordingly, this case is now closed. No further action is contemplated with respect to the matters involved in that case.

Sincerely,

James Reynolds
