Dear Mr. Jenkins:

This is in reply to your letter of December 23, 1970, concerning plans of inspection and maintenance required to be filed under 49 CFR, Section 192.17. We are enclosing a copy of this regulation and a copy of the remainder of Part 192.

We have not prepared a manual or guidelines and hopefully will be able to do so after the first annual reports are submitted under Part 191 and are analyzed and the first submission of inspection and maintenance plans have been received. We expect such plans at least to meet all the inspection and maintenance requirements of Part 192.

Thank you for your interest in the pipeline safety program.

Sincerely,

/signed/

Joseph C. Caldwell
Director, Acting
Office of Pipeline Safety
