

Mr. Gaylon Simmons  
General Manager  
Delta Gas Inc.  
861 Carondelet Street  
New Orleans, Louisiana 70130

Dear Mr. Simmons:

This is in reply to your letter of March 3, 1971, requesting instructions for preparation of a plan of inspection and maintenance required to be filed with this Office by the provisions of 49 CFR, Section 192.17.

We have not developed instructions for plans of inspection and maintenance. We would expect that such plans will at least comply with all the inspection and maintenance requirements of 49 CFR, Part 192. You may file a basic plan and amend it as you refine it in the future.

Sincerely,

/signed/

Joseph C. Caldwell  
Director, Acting  
Office of Pipeline Safety
